- Under **Indian** Management  
but.... in abroad

# MESSAGE FROM THE CHAIRMAN

## MESSAGE FROM THE CHAIRMAN

Warm Welcome....

"I congratulate you on the choice of becoming a doctor which offers a combination of intellectual and moral interests found in no other profession."

You have chosen a very noble profession and I would like to see you becoming a top doctor in India or any part of the world.

Your motive should be not only to treat the disease but also to treat the patient mentally and psychologically. Your words and way of handling the patient should cure patient's disease from his thoughts. Then it will be easier for you to treat the disease of the patient.

Always remember, humanity comes first. After God, Doctor is the one to save a life. Study well and become saviours in future. My best wishes are always with you for your success.

SG will always be with you for guidance until you graduate and even after graduation.

All the best!

**Mr. SATEESH GARIKAPATI**

Chairman SG Group

## ABOUT SG CONSULTANCY

SG Consultancy with its vision to give best opportunities for the students to study MBBS abroad and has successfully graduated more than 5000 students to become successful doctors were recognised and rewarded by the honorable governor of Telangana Ms. Tamlisai Soundararajan in the year 2022.

## **We Practically Leased a Medical College Abroad to match complete Indian system only for our students.**

We are proud to share that we have practically leased an entire medical college abroad, specifically designed to meet the needs of Indian students pursuing MBBS. This initiative goes beyond just securing academic seats — we have built an environment that feels like home while maintaining world-class education standards.

### **Key Highlights:**

#### **Indian Professors & Non Teaching Staff**

Our faculty includes experienced Indian professors who are well-versed with the Indian medical curriculum. This ensures that students receive the right academic foundation to pass screening tests like FMGE/NExT, USMLE, PLAB and practice confidently in India or abroad.

#### **Dedicated Telugu Wardens and Caretakers**

Hostel life plays a crucial role in a student's journey. That's why we have appointed Telugu wardens and caretakers to manage hostel facilities, ensuring a safe, comfortable, and culturally familiar living space for our students.

## Our Cooks – Home-style Meals

We understand how important food is when studying away from home. Our college mess is staffed with Telugu cooks who prepare hygienic, nutritious, and tasty Indian meals daily, catering to both vegetarian and non-vegetarian preferences.

## Complete Student Support System

From academic guidance and FMGE preparation to personal care and 24/7 support, our goal is to create a holistic and stress-free environment where students can focus entirely on their education and personal growth.

***\*Performance of the students like their Marks and class attendance will be provided to their parents on regular basis.***

Dedicated Team is appointed to communicate between Professors, Management and Parents on any relative issue at any given point of time.

## Indian Community Environment

With a large number of Indian students on campus, cultural festivals, language, lifestyle, and traditions make it feel just like home — thousands of kilometres away.

This setup is ideal for Indian students looking for affordable, high-quality medical education without sacrificing comfort, safety, or familiarity. ***It's more than just a Medical college — it's a home away from home built for success.***

Central Asian Medical University is an institution dedicated to educating future healthcare professionals, conducting medical research, and improving public health. The following are the essential features that define a high-quality medical university:

### ★ Accredited Academic Programs

Medical Universities offer a variety of programs including:

Undergraduate degrees such as MBBS, BDS.

All programs should be accredited by national and international medical education authorities to ensure global recognition.

### ★ Experienced Faculty

Qualified professors from India with minimum 15+ years of experience will be the great asset for the students to achieve their Goals.

CAMU also invite guest lecturers and experts from around the world to enhance learning quality.

## ★ Modern Infrastructure and Facilities

CAMU is equipped with:

Advanced modern laboratories (anatomy, physiology, bio-chemistry, pathology, etc.).

Simulation labs for clinical practice.

Lecture halls with multimedia equipment.

Digital libraries with access to medical journals and research databases.

## ★ Teaching Hospitals

Affiliated and on-campus teaching hospitals provide students with real-world clinical exposure. This hands-on training is crucial for developing diagnostic and treatment skills.

## ★ Clinical and Practical Training

Medical education emphasizes practical training, which includes:

Bedside teaching.

Internships and clinical rotations.

Participation in surgeries, patient care, and emergency management.

### ★ Global Recognition and Exchange Programs

CAMU is listed in directories such as:

- World Directory of Medical Schools (WDOMS).
- USMLE (USA), NMC (India), GMC (UK), AMC (Australia) etc.
- CAMU also offers student exchange and collaboration programs with international universities.

### ★ Student Support Services

- Hostels and accommodation.
- Medical insurance and health services.
- Career guidance and counselling.
- Extracurricular activities and sports.
- Indian festival celebrations.

### ★ Diverse Student Community

CAMU attract students from all over the world, promoting a multicultural and collaborative learning environment.

### ★ Technology Integration

Modern institutions integrate technology into education through:

- E-learning platforms.
- Virtual anatomy and surgery simulations.
- Online assessments and remote lectures.
